

INTRODUCING

OSP Electronics Mini-Cabinet Mounting Posts **The Newest Innovation In Captive Cabinet Mounting Solutions**

Rugged and Heavy Duty - General Devices' manufactured Wireline OSP Mounting Posts feature a thick aluminum platform transition mounting plate assembly for strength and stability with multiple hole patterns to allow for several different cabinet mounting options along with a thick wall aluminum post for increased life and durability. A great choice for rural and remote applications, the "WOMP" allows flexibility on site locations as well as installations of various OSP electronic cabinets.

Features/Benefits

- Minimal site preparations
- Smaller or no right-of-way requirements
- Can be installed on unlevelled ground
- Eliminates the need for concrete mounting pads
- Easy site maintenance and mowing access
- New all aluminum construction with stainless steel hardware to resist corrosion
- 1/4" thick aluminum post for a sturdy in ground understructure foundation
- 1/8" thick aluminum transition body with 1/4" thick reinforcement gussets for strength & durability
- 3/16" thick aluminum mounting plate platform for toughness & endurance
- Multiple standard mounting hole patterns to fit a variety of cabinets
- Transition platform can be customized to fit almost any cabinet
- Cabinet weight load centered over post — unlike pole mount installations
- Electronics are up off the ground for safe, easier, more comfortable access
- Secure and protected wiring conduit inside post and away from mowers, rodents, and animals
- Earth-tone blending almond color powder coat paint — high impact and corrosion resistant
- Made in the USA
